

# Hydraulic Sliding Pallet Forks

Brute Hydraulic Sliding Pallet Forks are equipped with two hydraulic rams that maneuver the forks back and forth over the entirety of the carriage. They are constructed of 1/4" screen material with a 1.25" by 3" machined down top slider bar and a 1/2" lower slider bar and 5500 lb capacity forks. The walk through carriage is designed to allow the skid steer door to swing over the top making it easy to get out of the cab with the forks attached!
